

SEALQUIK-Oil-Based Pigmented sealer

Product Description

SEALQUIK is a oil-based pigmented sealer that cleans up in water.
SealQuik has the advantages of drying quickly like a wallboard acrylic sealer but with the increased adhesion and better sanding qualities of a traditional oil-based pigmented sealer.

Features: excellent adhesion, good hiding powers, self leveling and quick drying and re-coat time.

Advantages over water-based sealers: can be used on most wallboard surfaces including waterproof impregnated wallboards, can be used under wallpaper and blocks stains.

Intended Uses: *For Interior use only*

Can be used on:(interior surfaces) new walls and ceilings and the following substrates-paper faced wallboard, interior concrete, solid plaster, customwood (MDF) or particle board and pre-painted areas.

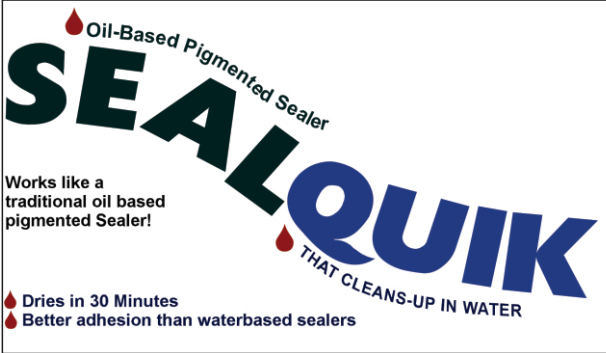

Can be over coated with: water-based or oil-based coatings.

Can be wallpapered over: After pigmented sealer has cured (see cure times)

Can be plastered over: As with all Alkyd pigmented sealers paint must be fully cured (see cure times)
 (when using under anything other than paint ,in less than the cure time may void any and all warranties of this product)

Technical Data:

Resin	Alkyd Oil Resin
Colour	Pigmented White
Solvent	None
Shelf Life	3years +
Finish	Matt
Touch Dry	30-45minutes
Re-coat Time	1-2 Hours
Cure Time	4-7 Days (dependent on Temp & humidity)
Preparation	surface must be sound, free of dust,oils & contaminants
Preparatory coat	None
Coverage	11-16 sq mtrs / ltr
Number of Coats	1 (2 may be required on heaviliy stained surfaces)
Durability	Excellent (must be overcoated)
Dry Film Thickness	23 microns at 16sq mtr per Ltr
Thinning	not required (if necessary maximum of 10% with water)
Cleanup	Clean soapy water (do not discard waste in waterways)
VOC	Less than 25gms per Ltr
Pack sizes	1 litre, 4Litre and 10 Litre
